

## MV Outdoor Vacuum Load Switch

FZW28 Outdoor MV Vacuum Load Switch is designed for disconnecting load current in 12/24kV overhead distribution network. It supports both manual and automatic operation modes.

- High safety level (Vacuum ARC & SF6 insulation).
- Flexible installation (Pole-mounted & ground-mounted).
- 20 years of maintenance free operation.
- Explosion-proof, Anti-dewing structure.
- Equipped with pressure relief valve.
- High ingress protection (IP67)
